

DESKTOP SOFTWARE

QAT Global delivers custom desktop software that is customized to your purpose and built specifically for you. By leveraging the best-of-technologies, we develop rich, user-friendly and effective desktop applications that work offline and run off the web browser.

- Client Server Applications
- Smart Client Applications
- Thin Client Applications
- Thick Client Applications

STREAMLINE YOUR BUSINESS

We help you deliver needed functionality through rich, easy-to-use, easy-to-access, new-generation Rich Desktop Applications (RDAs) and Rich Internet Desktop Applications (RIDAs). Our desktop applications facilitate instant content synchronization, quick file system access, and ready management of downloadable content, even while working offline. With our Agility RPM development process, you will be involved during the entire development process and have control of how your software functions. Plus, the desktop software developed by QAT Global is robust and highly secure.

Services we offer:
